# Company Vision

---

*In today's cutting-edge service industry  
Promising and Delivering are two different  
sides, we prefer the latter.*

Information Technology is helping businesses grow and tap more markets and consumers. But what really matters is 'differentiation'. We, a team of young professionals, make sure your product – whether an Android or iOS based application or an e-commerce website – carries features that are unique and give your business a lead.

We understand the commercial needs of modern businesses and how a software solution can be used to improve performance & profitability. Our passion is seeing how our software can impact businesses and transform profits.

## AELO: Customised CMS and Website

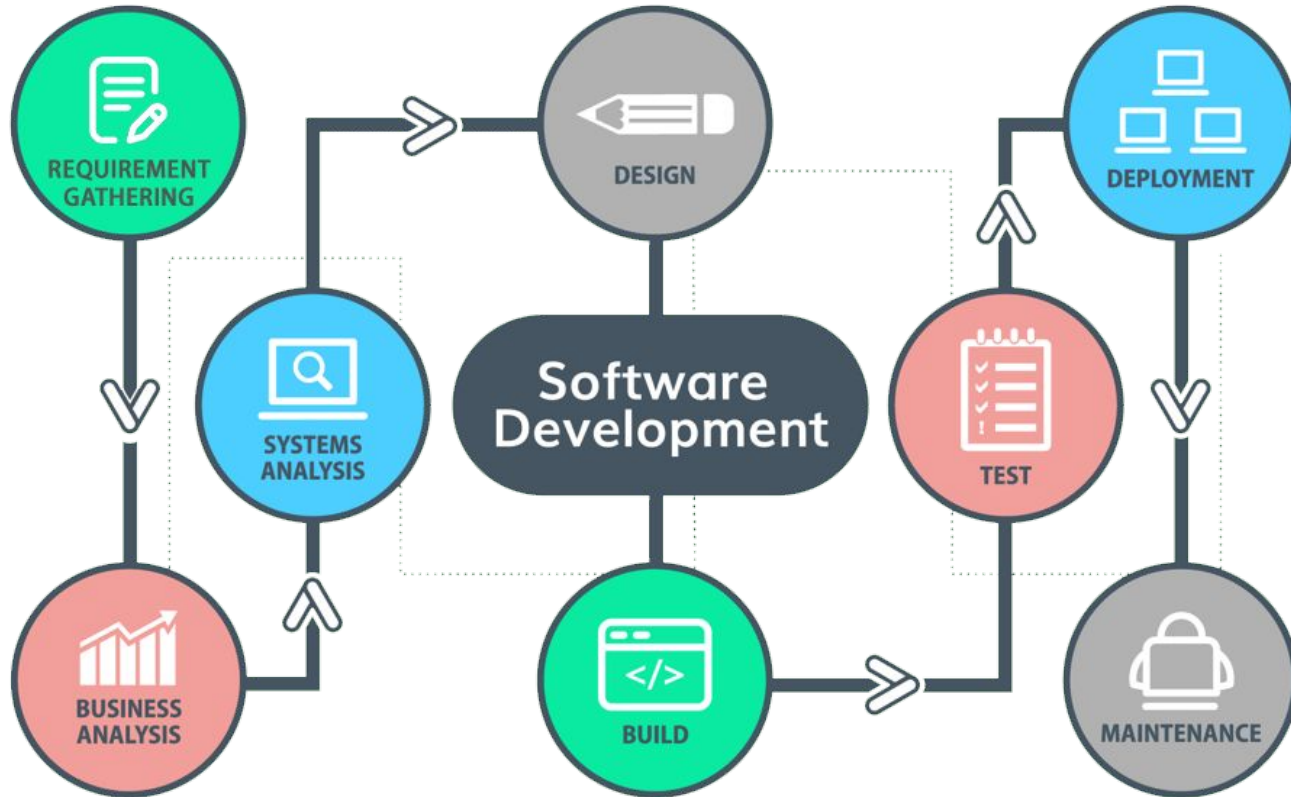

## GoForVisa: Customised CRM for Immigration Agency

The screenshot displays the GoForVisa CRM interface. The top navigation bar includes "Go For VISA", "Add Students", "Search Students", "Accounts", "Email", "Visits", and a "More" dropdown. The main content area is divided into two sections. On the left is a sidebar menu with options: Basic Details, Profile Picture, Employment, Education, Visa (highlighted), Associated People, Sponsor, IELTS, Agent Information, Documents, and Points Test. On the right is the "Visa to Apply" form, which includes tabs for "Visa to Apply", "Current Visa", and "Visa History". The form contains several input fields: "Enter VISA Name", "Enter VISA Subclass", "Enter VISA Number", two date fields (mm/dd/yyyy), and "Enter Place of VISA". At the bottom of the form are "Reset Form" and "Save & Proceed" buttons.
